PROFESSIONAL PROFILE

Front-end developer with a B.Sc. in Statistics, building responsive, accessible websites with HTML, CSS, JavaScript and React. Has designed, built and deployed three live websites on Vercel, including a fashion brand landing site with a booking form and a professional portfolio for a client. Combines an analytical mindset with clean, maintainable code, and is now deepening skills in React and Node.js. Seeking a junior front-end role to contribute to real products.

TECHNICAL SKILLS

- **Core:** HTML5, CSS3, JavaScript, React, responsive layouts and Node.js
- **Tools:** Git, GitHub, Vercel deployment and Vscode
- **Practices:** Mobile-first design, semantic HTML, web accessibility fundamentals, cross-device testing
- **Currently learning:** Node.js and Express

PROJECTS

T-THREAD Fashion Hub: Fashion Brand Website · Live · GitHub *HTML, CSS, JavaScript*

- Built a responsive landing site for a fashion designer, with sections for about, a 20-piece collections gallery, services, client testimonials and contact.
- Implemented an inquiry form with a service selector and preferred date, plus a WhatsApp chat link to make booking easy on mobile.
- Deployed on Vercel with a clear navigation structure and calls to action across the page.

Professional Portfolio for a Finance Professional: Client Website · Live · GitHub *HTML, CSS, JavaScript*

- Designed and delivered a multi-section portfolio covering profile, education, experience, skills, certifications and leadership, built for a client.

- Added a downloadable CV, a contact form, and SEO metadata (title, description, keywords) to improve discoverability.
- Deployed on Vercel and handed over as a live site.

Personal Developer Portfolio · Live · GitHub *HTML, CSS, JavaScript, React and node.js*

- Built a responsive portfolio presenting skills, projects, a downloadable CV and a contact form, with links to GitHub and LinkedIn.
